### Highlights

Our staff focused on ways to improve their effective engagement with students this year. Our KEYS School Improvement program worked all year on ways to develop meaningful, relevant lessons that would motivate our students. We had each classroom implement project based learning to facilitate better student engagement.

This year we commissioned our new biomass heating and cooling HVAC system. We have significantly reduced our energy expenses, added air conditioning, now have fresh air in the buildings, and are using local resources to heat our buildings. We have been pleased with the energy savings that this wood chip system will save our district for decades to come.

### Progress Towards Meeting Goals

#### 2005-06 Goals

#### Progress

The goals for the district during the 2005-06 school year were to focus on character education in every classroom and to develop ways to improve effective engagement with students. Our district sought to find ways to reach our unmotivated and at-risk students through project learning and the creation of lessons that would give relevancy and meaning to our students.

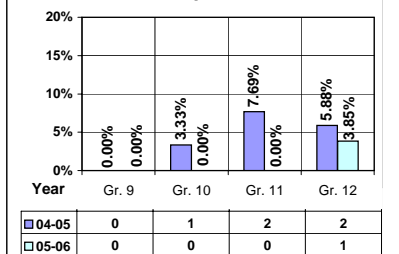

The district also finished our biomass HVAC system that made Council SD the most energy efficient district in the state by using local resources- wood chips- to heat our buildings. Our system also provides air conditioning and fresh air to our buildings.

## Adequate Yearly Progress and Assessment : 2005-06

Did Council District make Adequate yearly progress for 2005-06? Yes

Percent of the 41 targets that Council District made: 100%

The goal in our nation is for all students in grades 3 through 8 and 10 to be proficient in reading and math by the spring of 2014. Idaho uses the Idaho Standards Achievement Test (ISAT) and the Idaho Alternate Assessment (IAA) to measure proficiency. This report shows the percentage of students who met state goals for proficiency in reading and math.
